

# Save Mt Spokane

## Stop the proposed ski area expansion

*Stop the Proposed expansion of the Mt Spokane Ski and Snowboard Park.*

Let's balance our desire for an improved and thriving ski area with our need to protect this unique and ecologically important landscape in our community.

*Save Mt Spokane Coalition, a local citizen and environmental group invites you to have your voice heard in opposition to the destruction of the intact ecosystem and watershed on the north and west slopes of Mt Spokane by the proposed ski area expansion by Mt. Spokane 2000. Let's work together to preserve these pristine natural areas, protect unique wildlife habitat and species, and enhance opportunities for non-motorized recreation.*

*The Save Mt Spokane Coalition wants to see Mt Spokane Ski and Snowboard Park be successful and financially viable. We do not think this fiscal viability should be at the expense of fragmenting the last remaining large intact natural forests near Spokane.*
